

Inter-Institutional Block Transfer Agreements

This data applies to the 2002-2003 academic year.

There are many arrangements in B.C. whereby students can enroll in a program at one institution, and upon completion of that program, transfer the whole certificate or diploma or associate degree for credit towards a degree program at another institution. This type of transfer is known as Program Transfer or Block Transfer, and is very advantageous in that a completed program will sometimes transfer, even where all the individual courses in the program may not receive course-to-course transfer. Generally, the transfer is for credit towards a specific degree. For example, a Forestry Diploma may receive credit towards a degree in Forestry, but that credit may not be applicable to other degrees at the same institution.

There are also some cases where the completed program may be an identified collection of courses, rather than a diploma or other credential. Some agreements concern a completed "pre-major" program, which refers to the courses taken at the first and second year level which are prerequisite to entry to a Major Program within a degree.
